In the Matter of Docket No. 96-45 (Universal Service)

Dear Mr. Canton,

I understand that the Federal-State Joint Board on Universal Service have recommended that long distance voice and data line connection charges between individuals with a disability who need to work from their home and their employer be waived. Eliminating long distance telephone charges as an obstacle for telecommuting employment is an important step in assisting individuals with severe mobility impairments to join the nation's work force. I am writing in support of the Federal-State Joint Board's recommendation and urge you to adopt that recommendation.

Sincerely,

Derek D. Bigard
